

# Cutting Oil

**Performing cutting lubricant gel for drilling, cutting, tapping for iron, stainless steel, aluminium, copper, zinc, lead**

**Cutting Oil** is a high-quality drilling and cutting oil with strong sticking properties and excellent cooling capacity, ready to use for high temperatures up to >250°C.

**Cutting Oil** is specially designed for optimum lubrication during drilling, cutting and tapping and avoid the heating of tools. **Cutting Oil** keeps drilling and cutting tools in optimum condition. It has a long lasting life for optimal lubrication and cooling of parts.

**Cutting Oil** is suitable for both hard and soft metals like steel, stainless steel, copper, brass, zinc, lead. **Cutting Oil** is very useful due to its gel consistency to apply on tool or object to be treated. Shake well before use.

Aerosol 500 ml

## Main applications for Cutting Oil :

- For all applications of drilling, cutting, tapping, sewing...
- Suitable on all kinds of metals : aluminium, copper, zinc, steel, brass, stainless steel, lead...
- Excellent lubrication and cooling capacity.
- Increase the lifespan of machines and cutting tools
- Strong adhesion to parts to be processed
- Ready to use

## Instructions of use of Cutting Oil :

- Shake thoroughly the aerosol before use
- Spray from a distance of 15-20 cm
- Keep away from children

## Technical information of Cutting Oil :

- Packaging : aerosol 500 ml
- Colour : transparent/brown
- Flash point : N/A
- Flammability, aerosol only : LEL 0.8 ol % in the air at+25°C UEL 9.0
- Boiling point/range : >250°C
- Melting point/range aerosol : <0°C
- Auto-ignition as aerosol : >450°C
- Auto-ignition as liquid : 400°C
- Explosive properties : none
- Oxidising properties : none
- Pression inside aerosol : 2.75 bars
- Relative density relative as liquid : 0.996
- VOC content as aerosol : 13 g/100 ml
- VOC content as liquid : NIV
- Solubility in water : insoluble
- Solubility in solvent : soluble in aliphatic hydrocarbons
- Storage : in a cool dry place
- Shelf life : 24 months
- Always read the safety data sheet (SDS) before use

## Packaging :

Article Nr	Product	Packaging	Content	Unit	Packing
784175	Cutting Oil	aerosol	500	ml	12

## Related products of Cutting Oil :

- **Ultra-Cleaner** Ultra-power cleaner and degreaser for automotive, bikes, motorbikes, industry and building
- **Bio-Clean** Biodegradable cleaner for automotive, bicycles, motorbikes, mechanics, building and industry
- **Power Foam** Powerful ready to use foam cleaner, all surfaces
- **Ultra PTFE** High performance PTFE lubricant, multipurpose, extreme conditions
- **Bio-Wipes** Recycled and eco-friendly cleaning wipes for grease, lubricants, dirt, painting, sealants all surfaces

## **Safety instructions and conditions of use of products - Liability**

All given information of product sheets are established under our current knowledge and are indicated as approximate datas and should not be considered as exhaustive. Products are subject to modification without any prior information which could lead to variations of applications and performances. Always use the latest updated technical sheet. We are not responsible for any damage or loss due to information or errors in that document which are in any way not a guarantee.

Considering the large quantity of materials and supports, application methods different for each use, storage and transportation conditions which are totally out of our control, we are not liable for any damage or loss, directly or indirectly caused by the use of our products.

We strongly recommend the user to make prior testings to make sure the product is suitable for the intended application or use.

Always wearing individual safety protection equipments when using our products like gloves, long sleeves, full covering clothes, glasses, masks, etc.

The user is also informed to read the latest Safety Sheet before using our products concerning all safety instructions which are on the packaging of the product.

Always keep out of the reach of children and store products in a locked storage area.

Avoid any chemical contact during pregnancy or while nursing for the safety and the health of the baby to avoid foetal malformations.

If swallowed, immediately call a doctor or the hospital or the closest poison with the packaging of the product and/or the Safety Sheet of the product.

In case of allergy, inhalation or contact of the eyes with the product, rinse cautiously with water for several minutes or remove person to fresh air and keep comfortable for breathing and in case of emergency, contact a doctor or the hospital or the closest poison with the packaging of the product and/or the Safety Sheet of the product. Do not breath spray. Use only outdoor or in a well ventilated area.

Avoid any release to the environment. Eliminate the content and the container in the specific collection of your city in accordance with local/regional/national regulations. Harmful to aquatic life with long lasting effects.

No smoking. Keep container tightly closed. Do not pierce or burn, even after use. Do not spray on an open flame or other ignition source to avoid any burn or fire. Protect from sunlight. Store in a cool and well-ventilated place.
